

A Song for Emma

She used to be my only woman in a land that I call my dreams
But I would better be a woman and now I'll tell you what it means
Had a friend her name was Emma you've to believe that I loved her so
Wanted her to be my woman but as she heard it she just did go
But I think if i was a woman with her I'd never fall in love
I should search for Viking Conan, the strongest kind of male love
But life just told me to be a man and fate told me to be a friend
A nice condition of inhumanity and that's the story of you and me
But life just told me to be a man and fate told me to be a friend
A nice condition of inhumanity and that's the story of you and me
She used to be my only woman in a land that I called my dreams
But I would better be a woman and now I've told you what it means
